Career Objective

To secure an entry-level position as a Computer Science Engineer where I can apply my programming knowledge, problem-solving skills, and passion for technology to contribute to organizational growth while continuously enhancing my technical and professional abilities.

Education

Sagar Institute of Research & Technology-Excellence

B.Tech – Computer Science Engineering

Sep 2022 – Expected Jun 2026

Current CGPA – 7.86/10

S.P Jain College

Senior Secondary – Class 12th

Sep 2020 – Jun 2022

Percentage: 74/100

G S High School

Matriculation – Class 10th

Mar 2019 – May 2020

Percentage: 82.8/100

Projects

FILE MANAGEMENT SYSTEM Github — PYTHON, TKINTER(GUI), OS MODULE, SHUTIL MODULE

- Developed a GUI-based File Management System using Python and Tkinter.
- Automated file organization by categorizing files based on extensions (PDFs, images, text/code files, media, others).
- Implemented directory scanning and file handling using OS module.
- Used Shutil library to safely move files into respective folders.
- Designed a user-friendly interface to input folder path and manage files.
- Created an output/log system to display file movement details in real time.
- Reduced manual effort and improved folder organization efficiency through automation.

Technical Skills

Frontend: HTML, CSS

Backend: Django, FastAPI

Databases: MySQL, MongoDB

Tools: VS Code, Jupyter

Programming Languages: Python

Core Subjects: Data Structures and Algorithms (DSA)

Certifications

Python — Certificate

SQL — Certificate

Additional Information

- **Languages:** English, Hindi
- **CodeChef:** Solved 1500+ Python problems on CodeChef, enhancing problem-solving ability, algorithmic thinking, and coding efficiency.
